

## Sarhad...

Sarhad consists of five people from different walks of life, sharing a common passion for creating music.

Sarhad believes that music is connected to a person's feelings, emotions, experiences of life.....and music can really unite all. And that's what we create.

Our music is an honest effort to give a sound to our beliefs. We would like you to listen to the songs and leave a comment.

We are soon coming up with some brand new recordings..and hoping that you people would like them...it would be awesome to have feedback..but we are gonna create what we believe in nonetheless...
